RE: Fitness Group Services Price Adjustments

PROPOSAL:
Adjust prices for Fitness Group Services to apply the same rate for all requests.

BACKGROUND/RATIONALE:
Group Services such as group fitness classes, bootcamp and small group training are offered to the UF Community through the Fitness Group Services program. The price of these services is currently calculated by the percentage of participants projected to be involved. Creating a singular price structure enables the requesting organization greater flexibility of who can participate in their event. Additionally, it also provides Fitness Group Services a price structure consistent with all other Training Center Services.
