**RULE REVIEW**
Official Sitting Volleyball rules (approved by the World Organization of Volleyball for the Disabled) will govern all play for any rule not mentioned in the following Intramural Sports rules.

Rule Modifications for Sitting Volleyball:

1. The position of each player is determined and controlled by the position of their bottoms. This means that the hand(s) and/or leg(s) may lie in the attack or free zone outside the court.
2. “Bottom” is defined as the upper part of the body, from shoulder to one’s buttocks.
3. Touching the opponent’s court beyond the centerline with a hand is permitted, if some part of the penetrating hand remains either in contact with or directly above the centerline. To contact the opponent’s court with any other part of the body is forbidden. The player may penetrate into the opponent’s space under the net, provided there is no interference with the opponent.
4. The player is not allowed to lift his/her bottom from the court when executing any type of attack-hit. The back-row player may perform any type of attack-hit from any height, if at the time of the hit the bottom does not touch or cross over to the attack line.
5. The player must have contact with the court with some part of the upper part of the body at all times when playing the ball.
6. The referee’s official hand signal of “lifting from the court” is raising the upper hand and forearm positioned parallel to the floor and mirror imaging the lower hand and forearm.
