Regular Season Scheduling

All scores not reported by their respective deadline will be ruled as a loss for the team that failed to report their score.

**Example:** Your week 1 game is scheduled on February 2\textsuperscript{nd} at 12 am. This is when the system will begin to allow you to report your score. Your week 2 game is scheduled for February 9\textsuperscript{th} at 12 am. **THIS IS WHEN YOUR WEEK 1 GAME IS DUE,** as this is when the system will begin to allow you to report your week 2 score. You will this period of one week to contact your opponent, schedule and play your match, and report your score. The score of this game, as well as your rating of your opponent’s sportsmanship, must be reported by the due date.

*If something arises and you need an extension, please fill out this [Game Extension Form](#) and we can grant an additional 48 hours to complete the match.*

Players are responsible for setting up match times and reporting their scores within the above time frames for each “Week” of the regular season. Failure to report a score will result in both teams forfeiting their match that week. See below for more details regarding the Esports Forfeit Policy.

**Esports Forfeit Form**

Completing the Esports Forfeit form is appropriate in the following situations:
- Opponent was unresponsive in attempted communication to schedule a match.
- An agreed upon match time was missed by one of the players.

If you feel either of these scenarios apply to you, complete the Esports Forfeit Form found [here](#). Screenshots and documentation of the attempted communication are required for the Intramural Sports Office to make any rulings on forfeits.

**Forfeit Limit**

Teams are allowed one (1) forfeit during the regular season. If a team forfeits two (2) or more matches during the regular season, they are ineligible for Playoffs.

**Playoff Scheduling**

Playoffs: **Late March-April 2020**

**Disconnected Game**

Please examine the following situations regarding procedure for when a game is disconnected.
1. If one or both players are disconnected, it is expected that both players start a new game, and only play the remainder of the game.
   a. **Example:** FIFA 21, Team A is up 1-0 and the game disconnects at the 65-minute mark. Players should re-start the game, and only play until the 25-minute mark with no extra time. Keep track of the score and add any additional goals to the 1-0 preexisting score.
   b. **Exception:** If the player who is disconnected is unable to reconnect in a timely fashion, and players are unable to find another time to play in the given time frame, the disconnected player is awarded a loss for that game of the season.
   c. **Exception:** If the disconnection is due to a server issue, and players are unable to play their game, they may be allowed to extend the score-reporting window. Please fill out [this form](#) to get an additional 48 hours to complete the game.

**Sportsmanship**

All players are expected to have exceptional sportsmanship throughout the tournament. Offensive language including but not limited to profanity, racial or ethnic slurs, or other intimidating actions directed towards other players and administrators will **not** be tolerated and are grounds for removal from competition, and further disciplinary action.

You will have a chance to grade your opponent's sportsmanship on a scale of 1 to 10, (with 1 being a poor opponent and 10 being excellent). However, if you experience any behavior that you feel requires additional attention, please report it to the Intramural Sports office [here](#).
